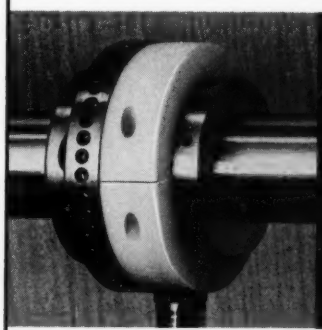
Get rid of your punch pan and remove chad automatically...



New "Economy" Automatic Chad Removal System*

"Economy" offers the ideal economical system for removing bothersome paper slugs and most dust from punch rings. Use as many Chad Removers as shaft space allows. Units are split for fast attachment or repositioning without removing shaft. Available with or without vacuum system and web cleaner options. Standard shaft diameter sizes and repeats available; custom-made for non-standard sizes. Write or call for more information.
